

I purchased my XM radio about 1 year ago, I can tell you that it was one of the best buys I ever made. XM has allowed me to received great music, news, and even old time radio broadcasts where before I was limited to a few stations with very few choices in programing. I now enjoy regional weather and traffic. I can't wait to see what they come up with next. I now understand that the NAB wants to stop XM from providing new services. I cannot believe the FCC would allow the limiting of XM. I therefore, respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the great service I now enjoy plus the new services they have planned.

Thank you
